

988: A Deep Dive for Clinical Integration & Crisis Response

Participants will explore evidence-informed techniques on integrating 988 into clinical workflows to support patient safety, reduce unnecessary emergency department utilization, and improve continuity of behavioral health care.

→ **Thursday, October 15th, 2026**
12:00 pm - 1:00 pm
Virtual Webinar

Target audience: Physicians, Advanced Practice Providers, Nurses, Social Workers, Care Managers, Behavioral Health Clinicians, Emergency Department professionals, and other healthcare professionals involved in crisis response, behavioral health care, or care coordination.

Speakers: Lauren Newland, LCSW-C, CCTP
Athena Thomas, CPLC, Mental Health Coach

1 CME is available for Licensed Medical Professionals
1 CE available for Licensed Social Workers, Certified Counselors & Nurses

Objectives:

- Describe the role of the 988 Suicide & Crisis Lifeline in behavioral health care
- Differentiate when to use 988 vs. 911 in clinical and community settings
- Identify key considerations for referrals, risk assessment, and follow-up
